HANDWASH STATION

MODEL 1 - SINGLE WALL MOUNT

Why?

This rugged internal hand wash station requires the removal of the portable restroom urinal, but gives the user 22-gallons of fresh water capacity. In situations requiring a fresh water flushing system, our Model 1 Single Wall Mount Handwash Station serves as the unit of choice for both hand washing and as the fresh water reservoir for the flushing waste tank.

OPTIONAL
Promount Board

Features

- 22-gallon fresh water capacity
- Foot pump operation
- Gray water drains directly into the portable restroom waste tank
- Molded-in spigot makes for a vandal-discouraging design
- 1.8 gallon per minute foot pump

OPTIONAL INCLUDE

- Promount board with soap dispenser, mirror & paper towel dispenser
