

ULTRA CLEAN 2000 PORTABLE HEPA AIR FILTRATION

The Ultra Clean 2000 is our most powerful full feature HEPA air purification and pressure control unit designed for high power portability in a rugged no-nonsense package.

Serious Performance

Among the most powerful units available, at 2000 CFM this unit is changing the air in a typical 12 x 12 room well over 100 times an hour.

True HEPA Filtration

The true HEPA filter removes airborne particles down to .3 micron in size with 99.97% efficiency. The unit also uses replaceable primary and secondary filters too to improve the life of the HEPA filter. Easily replaced filters are available from various sources.

Lightweight Portability

Four heavy-duty 4" casters coupled with four spring-loaded handles make transfer an easy job. The airtight case made of corrosion resistant heavy gage aluminum seals with Iron Grip neoprene material, and the door quickly opens and closes with a link lock latch.

Exclusive Motor Design

A unique custom designed 1.75 HP motor and dynamically balanced blower mounts in a tripod fashion using rubberized bushings designed to dampen vibration and minimize noise. Carefully engineered tolerances avoid motor shift, rubbing or drag.

Easy to Operate

Power to the unit is standard 120 VAC using the included 5 foot power cord. The built-in Minihelic differential pressure gage coupled with indicator light panel and audible alarm takes the guesswork out of filter replacement. The precision pressure gage reads 0-5.0 inches of water

Ultra Clean 2000 Specifications

Dimensions:	37.75" x 26.5" x 31.25"
Air Flow:	1975 (high speed) 1000 (low speed)
Weight:	160 lbs.
Motor:	1.75 HP, 2 speed
Power Supply:	115VAC, 60 Hz, 20 amps
Body:	.063 Aluminum

Filters

Pre-Filter:	24" x 24" - pre-filter pad
Secondary:	24" x 24" - ring panel filter
HEPA Filter:	24" x 24" x 11.5" (99.97%)

FEATURES

- Heavy duty aluminum cabinet is lightweight, durable, rust resistant
- Modular control panel, control panel unplugs for easy removal
- Sealed control box eliminates leakage around gauges
- Locks on HEPA filter assures a positive seal around HEPA filter
- Four heavy duty swivel casters, two w/locks provides easy mobility
- Rugged carrying handles provide easy portability
