EAGLE

# DROP OBJECT PREVENTION MAT

SAFETY & DROP PREVENTION MAT

▶ Black heavy duty vinyl mesh debris netting

▶ 1/16" mesh openings

▶ Bright yellow border for perimeter visibility

▶ Grip-like texture for holding mat in place

▶ Flame Retardant NFPA 701

▶ Perimeter grommets for tie down application

▶ Easy to deploy, fold, and reuse
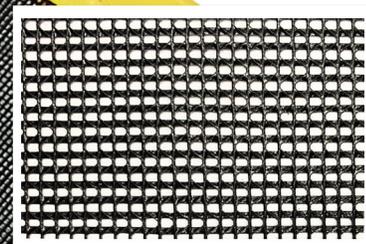

APPLICATIONS & BENEFITS

▶ Used as temporary work mats for drop prevention

▶ Prevents small tools, fasteners, and foreign objects falling from elevated work platforms

▶ Creates a safer workplace environment

▶ Reduces downtime and risk of worker injury

▶ Used in refineries, power plants, offshore platforms, and manufacturing facilities

▶ Industrial construction, turnaround, plant outage, and maintenance projects

PLEASE READ CAREFULLY!!

▶ Used for small dropped objects and debris only. Not to be used for large or heavy debris.

▶ Never use for lifting/hauling debris or materials.

▶ Never use as a personnel safety net for fall protection.

▶ Drop Prevention Mats are used to "prevent" objects from falling. There is no guarantee that objects will never drop or fall from heights.

▶ Multiple factors restrict or limit the use including the application, installation, appropriate mat size, worker safety, competence, awareness, area inspection, etc.
