

SWING STAGE ENCLOSURE SYSTEM

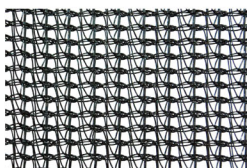

SSE SERIES

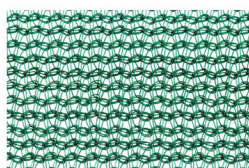

VERTICAL DEBRIS TARP ENCLOSURE SYSTEM

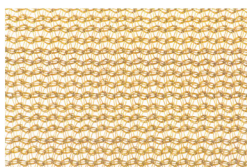

- Independent enclosure system that attaches to the building, not the swing stage
- Reusable rigging system with replaceable mesh debris tarps
- Has ability to adjust a distance from the building edge with bracket options & extension poles
- Uses Eagle stock Mesh Debris Tarps (MT series)
- Tarps made with grommets on seams & edges
- Flame Retardant NFPA 701 after advanced weathering
